

SUMMARY OF INTERVIEW

The following is a summary of a telephonic interview between Examiner F. Pierre VanderVegt, Ph.D., and Applicants' representatives, Dale C. Hunt, Ph.D., Sheila R. Gibson, and David C. Diamond, Ph.D. on October 22, 2007. Applicants first wish to thank Examiner VanderVegt for his time and consideration.

Exhibits and/or Demonstrations

N/A

Identification of Claims Discussed

1

Identification of Prior Art Discussed

None in particular

Proposed Amendments

Applicants proposed a simple amendment of the claims to recite requisite properties taught in the instant application and not found in the art.

Principal Arguments and Other Matters

Differences between the claimed invention and the general state of the art were discussed, in particular, the suitability of the claimed compositions for adoptive immunotherapy.

Results of Interview

The Examiner agreed that the art does not teach T-cells in a sufficient number to be suitable for adoptive administration to a human.
